Peliceman Huise Badly Beaten in Capturing the Leader.

Charles Sands, aged nineteen, of 436 West Sixteenth street, was held in Jeffersop Market Court this morning, charged with assaulting a livery-stable keeper named Hayes. The police say Sands is leader of a gang that makes its headquarters in the neighborhood of the stables at 147 and 149 West Twenty-eighth street.

The assault was committed a month ago, and Hayes is still unable to leave his bed. A warrant was issued for Bands's arrest, but he kept out of the majority of the Miskey and similar iniquities by the Whiskey and similar iniquities by the Whiskey Trust.

Many saloon-keepers, principally the Americans and Irish-Americans, favor the abolition of the free lunch, which, they say, is costly and unprofitable. The matter may be brought up for discussion in the Convention.

Morris Tekulsky, President of the State According to the officials of the Third Liquor-Dealers' Association, returned this morning from a trip to the river Avenue Railroad Company, the resignation of Chief Engineer E. The Superintendent's only comment to this report was: "Do you think I am fool enough to make any such statement?" He refused to say another word.

Corcerning the report that after the resignation of the engineers all the men belonging to that department had been paid off and discharged until further notice, Mr. Elias also said.

"There is no truth in it. The men are now at work and have never been discharged. Mr. Lighthall's resignation took effect only yesterday, and the men can work for a time without a head."

Mr. Elias added that the power-houses at Bayard, Sixty-fifth and One Hundred and Twenty-ninth streets were finished, and nothing remains to be done but the completion of the machinery.

The report that Mr. Lighthall had claimed the plans and had taken them with him, thus seriously crippling the Company in the completion of the road, was also denied by Mr. Elias.

He said the plans are the Company's property, and if Mr. Lighthall had carried them off there would have been little delay in getting possession of them.

Mr. Lighthall had been with the Company for two years, and practically completed all plans for the building of the road. He is reported to have said that the officials have annoyed him frequently by unjustly criticising his work, and, as was tated, charging extravagance.
